

**OLEIC ACID****Application:**

- Manufacturing Leather industries, chemical auxiliaries for textiles, pharmaceuticals and Cosmetics Industry.
- Food industry to make synthetic butters and cheeses, to flavor baked goods, sweets, ice cream and lemonade.
- Cosmetics in the preparation of moisturizers and ointments.
- Lubricants, chemical intermediates and alkyd resins.

Packing: 180Kg HDPE Plastic Drum**CAS No: 68603-42-9****Specifications:**

Parameter	Value	
Chemical Name	Oleic Acid 75% Min	
Physical State	Clear Liquid	
Odour	Odourless	
Colour	Clear	
PH	9-11 [at 20g/I H ₂ O] (20 Â°C)	DGF-H-III-1
Boiling Point	Approx. 163-274Â°C	AOCS Tr Ia-64
Solidification pt Â°C	<5 Â°C	DGF-C-IV3c [Dalican]
Flash Point	Approx. 194Â°C	DIN ISO 2592
Relative Density (20Â°C)	(20 °C) ca. 0.99g/cm ³	DGF-C-IV-2
Solubility	@ 20°C Practically Insoluble
